INTRODUCTION

1358796

The 1922 edition of the INDIANAPOLIS CITY DIRECTORY is herewith presented to patrons. The volume embodies the sixty-eighth issue of the publication, and constitutes a complete, modern Directory, fully commensurate in style, make-up and information with the Directories of the larger cities of the country. The Directory has ever kept pace with the uniform growth and progress of the city and expansion of its manifold interests and activities and is steadily devoted to the advancement of all that is vital in the commercial, social and industrial life of the municipality.

In the present volume all of the essential features which have proven so satisfactory to our patrons in previous issues have been retained and amplified and improvements added as suggested by experience, in order to add to the value and usefulness of the Directory thus fully meeting the requirements of patrons; the approbation and continued patronage accorded the work are constant incentives to better service.

The Directory contains a valuable fund of information concerning State, County and City Executives, Banks, Asylums, Hospitals and Homes, Building Loan and Savings Associations, Cemeteries, Charity Organizations, Churches, Clubs, College Societies, Courts, Federal Officers, Foreign Consular Corps, Insurance Companies, Labor Organizations, Libraries, Newspapers and Periodicals, Medical and Dental Colleges, Miscellaneous Organizations, Musical Societies, Post Office Data, Public Buildings and Halls, Parks, Public and Private Schools, Railways, Secret Societies, etc.

An invaluable feature of the Directory is the Buyers' Guide, printed on tinted paper and containing the advertisements of prominent and progressive business men and concerns, arranged by classification appropriate to the nature of the business pursued—"The Directory is the common intermediary between the Buyer and Seller."

The statistical review which follows this Introduction is especially noteworthy as clearly visualizing the greatness of the city in its civic, social, commercial and industrial aspects.

POPULATION OF GREATER INDIANAPOLIS

As in previous years the Directory canvass was not confined to the actual city limits but embraced all adjacent suburban territory, the residents of which are to all intents and purposes a part of the social, commercial and industrial life of Indianapolis; their residents are dependent upon the city for their prosperity, and they enjoy the civic advantages offered by it, since most of the residents have their business interests and activities therein and are intimately connected with it in every relation except governmental.

In this issue of the Directory there are listed 134,104 individual names; a conservative estimate of the population is obtained by multiplying the number of names by 2½, to allow for the names of married women and children which have not been included in the enumeration. This gives Greater Indianapolis a population of 335,260.

A complete library including directories of all the principal cities is maintained in our offices, 112-114 East Maryland Street, for the convenience and free use of our patrons. For the benefit of our advertisers and as a means of advertising the City and its business interests, copies of this edition of the Indianapolis City Directory will be placed on file in the Directory Libraries in all of the larger cities throughout the country.

4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

INDIANAPOLIS

DISTINCTIONS WHICH GIVE THE CITY SUPREMACY AS A MODERN PROGRESSIVE AMERICAN COMMUNITY, FURNISHED AND COMPILED BY INDIANAPOLIS CHAMBER OF COMMERCE.

Indianapolis is 55 miles from the center of population of the United States.

It is in the geographical center of manufacturing of the United States.

It is in population, transportation facilities and volume of business transacted, the largest inland city, not on a navigable stream, in the United States.

It has a population of 335,260, 82% of which are native born (white); and 2,000,000 people live within 100 miles of the city.

It is the capital of Indiana and in the geographical center of the state with railroad or electric railway connections with every part of the state.

It has an area of 43.5 square miles.

It has 17 steam railroads connecting all the cities in the central west. Freight shipments can be made through the Springfield and Peoria gateways thus avoiding the St. Louis or Chicago congested districts. Direct connections are also made with New York, Boston, Washington, Philadelphia and all other eastern cities.

The thirteen electric interurban lines radiating from Indianapolis comprise one of the most extensive systems in the United States. The terminal building, train sheds, tracks and freight houses are valued at $1,316,151. From this station approximately 18,632 passengers arrive and depart daily. The total number of passengers arriving and departing during the year 1921 was 6,800,823. Passenger cars made 128,319 round trips and freight cars 20,452 round trips.

Indianapolis has 162.54 miles of city electric car lines operating over double tracks, with 5c fare.

More cities of 30,000 population and over can be reached in a night's ride from Indianapolis than from any other city in the United States, embracing a zone including Chicago, Detroit, Milwaukee, Toledo, Cleveland, Buffalo, Pittsburgh, Columbus, Cincinnati, Louisville, Chattanooga, Knoxville, Memphis, St. Louis, Peoria, Springfield, etc.

Every one of the seventeen railroads entering Indianapolis is served by a belt railroad, fourteen miles in length, which surrounds the city and gives every industrial plant ready access to each radiating line. The industrial sites along the "Belt" are, therefore, very desirable.

The various railroad freight terminals in Indianapolis lie so near together that they might almost be regarded as joint terminals. The two principal freight houses are less than a block apart; and the two most remote are separated by only ten blocks. All freight stations are within easy reach of the wholesale district.

Indianapolis has three direct steam railroads to the coal fields of Indiana.

It has two steam roads direct to the stone quarries of southern Indiana.

Indianapolis is pre-eminently an industrial city because of its geographical location in relation to the general market, because of its exceptional shipping facilities, abundance of labor, the excellence of its labor conditions, and the nearness of the fuel supply.

It had 320.54 miles of permanently improved streets January 1, 1922.

It has 429 miles of sewers.

Indianapolis has six public auditoriums with combined seating capacity of 22,000 which are available for state and national conventions. According to the latest government report, there are 124,000 wage earners in Indianapolis establishments.

Indianapolis has several very large industrial buildings for small manufacturing concerns, which supply space, power and other facilities at reasonable cost.

The city enjoys an exceptionally low rate for electric power. The rate ranges, in general, from three cents per k. w. energy charge for the first 250 k. w.'s to one cent per k. w., with a demand charge of $3.00 or less per k. w. per month.

It has artificial gas at 90 cents a thousand feet. This is one of the lowest rates for artificial gas of any city in the United States.

Electric light and heat are furnished in Indianapolis by competing companies at minimum rates. The city has a low street car fare as compared with a majority of American cities. Pure water is furnished in Indianapolis at a remarkably low rate.

It has 450 miles of water mains, and 30,000,000 gallons of water is used each day. The water supply is abundant and pure. No other city surpasses Indianapolis in the excellence of its water. The value of the company's properties is $12,500,000.00.

A larger stock of iron and steel is carried in Indianapolis than is carried in any other city in the Central West outside of Chicago.

An excellent grade of steam coal, yielding an average of 12,382 B. T. U. per pound, is obtained from the Indiana coal fields at an average haul of only 90 miles. The freight to Indianapolis on this coal is $1.26 a ton.

Indianapolis is the commercial center of an agricultural territory of great wealth. within 100 miles of Indianapolis farm crops were produced in 1926 to the value of $500,000,000. The Central Library building, erected at a cost of $510,000.00, is a model in charm and equipment. It contains 270,000 volumes, and 758,378 books were borrowed during the past year. In addition to the main building, there are 15 branches, one of which is devoted to business and industrial interests exclusively, and 38 other distributing agencies. The Indianapolis market has the distinction of being the largest "drive in" market of the United States. More cattle and hogs are taken in by this market than come other than by railroad, because of the gigantic motor truck traffic that has been built up.

Other markets are denied this economic and efficient transportation because they lack the splendid system of hard roads which radiate to every point of the intensive trade territory of Indianapolis.

Last year, nearly 1,000,000 head of live stock, a little less than one-third of the total receipts, came by motor truck.

The value of the grain, as handled through the Board of Trade is estimated as between $70,000,000 and $75,000,000.

Indianapolis is admirably situated for manufacturing.

DODGE BROTHERS MOTOR CAR

The experience of every owner assures you, in advance, that this car is thoroughly reliable, that it is long-lived, that it is economical in any service.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

Men of Affairs—

Safeguard their Estates by appointing a responsible Trust Company to act as Executor or Trustee. There is no reason why smaller estates should not be similarly protected. They are in greater need of it---can less afford to incur risk. Any man with property to bequeath to his heirs should take this means of safeguarding them against unwise investment and also avoiding the uncertainties of individual trusteeship due to possible death, sickness or absence. A personal call or correspondence invited.

The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the City Directory Advertising Man and let him explain this to you in detail.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

are different from ordinary half-tones. They are so hard-faced their printing life is three or four times greater.
Unlike copper, they have no affinity for ink and all the ink is released at every impression, resulting in wonderful richness and great cleanliness.
They are so ***hard*** they are practically immune from scratches; inks will not corrode them. Specify "Stafford-tones"—the greatest development in process engraving in years. Patents applied for.

The Association of North American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employes.

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

All members of this association have subscribed to the following

STANDARDS OF PRACTICE

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.
5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.
6. To solicit subscriptions and advertising solely upon the merits of the publication.
7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.
8. To co-operate with approved organizations and individuals engaged in creative advertising work.
9. To avoid unfair competition.
10. To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.

$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or "fake" Directory.

The Buyers' Guide contains the advertisements and business cards of the most progressive business men and firms in our city, classified according to lines of business.

The City Directory

places the city on the map and is its only representative to the world beyond its own gates.

¶It is the city's catalogue of business and represents the city, its citizens and institutions in every corner of these United States.

¶It is the logical means of publicity in advertising the city, its manufacturing industries, its advantages and resources.

¶The men who direct the affairs of progressive and up-to-date business institutions recognize the fact that the City Directory tells the story of the city's life and keeps it before the public as no other publication does or can.

¶Its Classified Business Section furnishes a list of all trades, professions and pursuits, constituting a special trade directory or buyers' guide and is the best advertising medium on earth.

Lumber Service

THE MAAS-NEIMEYER LUMBER CO. maintains an organization, stock, and plant, fully equipped to meet the largest and most exacting lumber needs of builders and manufacturers.

Our mill employs skilled men whose training has been to regard quality in their workmanship above quantity, and we have supplied millwork to many of the largest buildings and finest homes in Indianapolis where quality was a requisite. Quite a number of local manufacturers have utilized our facilities for manufacturing wood specialties to detail.

Our stocks are unusually large, comprising practically all the merchantable hardwoods, Southern pine, Western and Northern woods, heavy timbers, heavy joists, boards and dimension stock. We sell in carload lots as well as at retail and will welcome an opportunity to serve you.

Is a good thing, isn't it? You would not think of doing business without it. **BUT IT IS ONLY SEEN BY THOSE WHO PASS YOUR WAY.** If you could put a sign where every one could see it, would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants in the Directory, properly indexed under all headings where he might look for you.

Directory Libraries

¶ Every Polk office has a library of directories of various cities. These are maintained for the convenience of our patrons, and they are constantly supplying information of many different kinds to people who come to use them.

¶ City Directories are City Catalogs. They contain a list of everybody and everything within a city. Many of the more progressive concerns buy directories of various cities as they are issued for mailing list purposes.

The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the City Directory Advertising Man and let him explain this to you in detail.

Bookwalter-Ball-Greathouse Printing Company

CHARLES A. BOOKWALTER, *President* FRANK W. BALL, *Vice-President* CHARLES A. GREATHOUSE, *Sec'y-Treas.*

Our New Office and Printing Plant, 1506-1522 North Capitol Avenue

WE are now located in our new buildings at 1506-1522 North Capitol Avenue, where we have increased facilities, ample floor space and an abundance of daylight and ventilation, which enables us to produce a larger volume and a better product at a more reasonable cost.

Having added new labor-saving machinery and equipment we are now able to handle large editions of bound catalogues, school books, law books, year books, text books, novels, magazines, sample books, etc., in cloth, leather, buckram, paper or any style book bindings, either machine or hand-made, at very reasonable prices.

A telephone call will bring our representative to see you.
